

Diagram 1

PLEASE NOTE: Any reference in this algorithm to tables in the 2016 NIOSH list should be replaced with Tables 1 or 2 of the updated *NIOSH List of Hazardous Drugs in Healthcare Settings, 2024*. In the new NIOSH list, Table 1 lists hazardous drugs with carcinogenic properties and Table 2 lists other hazardous drugs. Antineoplastic drugs now appear in both Table 1 and 2, and there is no longer a Table 3.
